Question #1 – #3- Each problem is worth 2 points. One for the correct answer and one of showing your work.

Question 4 – 4 points – 1 point for the answer to part one, 1 point for the final answer and 2 points for showing your work for each step.

Total of 10 points total.

# Week 17 - In Class Assignment

Name \_\_\_\_\_

Score      / 10

5.NF.1 Add and subtract fractions with unlike denominators Add or Subtract 1-3 (2pts each) .

1. Are the denominator's the same? If yes, skip to step 4.
2. If not, then we have to find the Least Common Multiple (LCM)
3. Change fractions into equivalent fractions by multiplying.
4. Then we add/subtract the numerators, slide over the denominators.
5. Simplify if needed.

1.  $\frac{3}{4} - \frac{1}{3} =$

2.  $5 - 1\frac{1}{2} =$

3.  $1\frac{1}{4} + \frac{2}{3} =$

4. Liang went to the book store. He spent  $\frac{1}{4}$  of his money on a pen and  $\frac{3}{8}$  of his money on books. What fraction of his money does he have left? Show answer with numbers or area model. (4pts – 1 point for the answer to part one, 1 point for the final answer and 2 points for showing your work for each step.)

*Read carefully 2 step problem!*
