

Week 25 - Assignment

Name _____ Score _____/10 (Circle your answer)

1. Convert and simplify: (2pts, 1 point to show how you solved)

$$8 \text{ in} = \underline{\hspace{1cm}} \text{ ft}$$

2. Express the fraction as an equivalent fraction to help make a decimal. Then express as a decimal. Show your work. (3pts: 1 point to show your work).

$$\frac{17}{20} = \frac{\hspace{1cm}}{\hspace{1cm}} = \underline{\hspace{1cm}}.\underline{\hspace{1cm}}$$

3. Choose a fraction for each blank that will make the number sentence true. (2 pts)

$$2 \times \underline{\hspace{1cm}} < 2 \quad 2 \times \underline{\hspace{1cm}} = 2 \quad 2 \times \underline{\hspace{1cm}} > 2$$

4. An art teacher uses 3 quarts of blue paint each month. In one year, how many gallons of paint will she use? (3 pts: 1 pt for answer, 1pt for sentence, 1pt to show how you answered it)

In Class Assignment:

Make sure your name is on your assignment! Complete all the questions.

Show your work!

When you are finished you may leave or give us a green check and we will come grade it for you.

Homework –

- Turn in any missing assignments –including this one if you don't finish it in class.
- Reflex

Rubric:

Name –

Question #1 –2. Each problem is worth 2 points. One point for the correct answer, one for showing your work and simplify if needed.

Question # 3 is worth 1 pt for answer, 1 point for fraction, 1 point for decimal

Question # 4 is worth 1pt for answer, 1 point for pic, 2 points for explanation)

Total of 10 points total.
